CONTOUR MAP SHOWING
TOP OF GLENWOOD- ST. PETER FORMATIONS
IN NORTH-CENTRAL ILLINOIS
BY
J. NORMAN PAYNE

Legend:
1. Contour, Interval 50 feet, datum sea-level.
3. Index number, see graphic legend (Vol. 66).
4. Top of boundary (Pl. 17).
5. Platteville boundary (Pl. 18).
6. Pennsylvanian boundary.

Explanation:
Inside the Glenwood-St. Peter underlies the Platteville. Its surface shows true structure except where there is a basal Platteville unconformity, where it underlies glacial drift or the Pennsylvanian. Its surface is modified by proglacial or pre-Pennsylvanian erosion.

Scale:
1 inch = 1 mile
